

CTJ Issue Brief: The Bush Tax Cuts in Massachusetts

In his first three years, President George W. Bush has presided over three rounds of major tax cuts, including special tax breaks for capital gains and dividends, reductions in personal income tax rates, estate tax repeal and an array of corporate tax loopholes. This issue brief summarizes the findings of several previously released CTJ analyses of the Bush tax cuts, focusing on their impact on Massachusettsans at different income levels and on how Massachusetts residents are affected by the ballooning federal debt.

Massachusetts's Wealthiest Residents Benefit Most From Bush Tax Cuts

The Bush tax cuts that have taken effect so far are heavily tilted toward the very wealthiest taxpayers—and the tax cuts will become even more regressive in the future. The following table shows the impact of the Bush tax cuts on Massachusettsans in each year from 2001 to 2006.

- In 2003, the top one percent of Massachusettsans, with average incomes of \$1,392,000, get 35.8 percent of the Bush tax cuts for Massachusettsans, with an average tax cut of \$87,096. By 2006, this group will get 46.9 percent of the cuts.
- In contrast, the poorest sixty percent of Massachusetts residents, with average incomes of \$27,000, collectively get only 12.7 percent of the Bush tax cuts in 2003.
- The poorest twenty percent of Massachusettsans, with an average income of \$10,000, get an average of \$98 from the Bush tax cuts in 2003. This is only 0.8 percent of the total tax cuts for Massachusettsans.
- The average tax cut for the middle twenty percent of Massachusettsans in 2003 is \$943. That falls to \$663 in 2006.

Increased Debt More than Offsets the Impact of the Bush Tax Cuts

While the three Bush tax cuts enacted so far are targeted to the wealthy, the explosion in federal debt that accompanies the tax cuts will fall on the backs of all Massachusettsans. When the added debt burden and the tax reductions are netted together, the Bush tax cuts are even more clearly a bad deal for Massachusettsans at all but the top income levels:

Net Burden of Bush Fiscal Policies 2001-2006, Mass. Taxpayers

Total	\$62.7 Billion
Per Person	\$ 9,754
Per Family of Four	\$ 39,016

- Between 2001 and 2006, Massachusetts taxpayers will receive \$31.2 billion in tax cuts—but will face \$93.9 billion in added federal debt, for a net added burden of \$62.7 billion.
- This means that the net impact of the Bush fiscal policies so far is an added burden of \$9,754 per Massachusetts resident—or \$39,016 for a family of four.
- For the middle 20 percent of Massachusetts taxpayers, the net burden of Bush’s tax and budget policies will average \$21,904 over the six-year period.

Most Taxpayers Receive Less than \$100 from the 2003 Tax Cuts

President Bush describes his 2003 round of tax cuts as “on average, a tax cut of \$1,126” a year. This statistic is misleading, since most Massachusettsans get far less than this “average.” In fact, many Massachusettsans get less than \$100 from the 2003 Bush tax cuts in 2003—and most will get less than \$100 a year after 2004.

- In 2003, 44 percent of state residents will get less than \$100 from the 2003 tax bill.
- By 2006, 2.7 million Massachusetts taxpayers—86 percent of all state residents—will receive less than \$100 in tax cuts as a result of the latest Bush tax cut.

Child Credit Expansion Bypasses Many Massachusetts Families

One of the mostly highly touted provisions of the 2003 Bush tax cut, the temporary increase in the per-child tax credit to \$1,000, actually provides no benefit for many Massachusetts families with children. In particular:

How the \$1,000 Child Credit Affects Massachusetts Families with Children Under 17 in 2003

# of Families Not Helped	155,116
% of Families Not Helped	20%
# of Kids Not Helped	279,658

- More than 155,000 Massachusetts families—with 280,000 children under 17—will get zero benefit from the 2003 boost in the child credit.
- These families represent 20 percent of Massachusetts families with children under 17 (excluding the small number of families ineligible for the child credit because their incomes are too high).
